

# Zdeňka Urešová

- **GAUK:** Diathesis and transformations of surface expressions of valency arguments (Topic for my PhD Thesis)  
(together with E. Hajičová, J. Ptáček., J. Šindlerová)
  - Formal relation between verb with its arguments and their surface expression, especially in diatheses in PDT-Vallex
  - Czech verbs, from PDT 2.0 and extensions (WSJ translation, also dialogues)
  - New: transformation rules for creating form of diatheses from canonical (primary) valency frames
  - Describes also consistency checks as performed on PDT 2.0
  - Purpose: natural language generation, consistency checking
- Other projects:
  - **GAUK:** Multilingual source for verbal valency  
(J. Šindlerová, M. Lopatková, O. Bojar, Z. Urešová)
  - **GAUK:** Enriching and Expansion of Lexicographic Resources  
(E. Bejček, M. Lopatková, P. Straňák, K. Vandas, Z. Urešová)
