

# Magda Ševčíková

- involved in projects
  - GA ČR P406/2010/0875 – Prof. J. Panevová, “*Computational Linguistics: Explicit description of language and annotated data focused on Czech*”
  - MŠMT ČR LC536 – Prof. J. Hajič, “*Center for Computational Linguistics*”
  - post-doc project proposal on description of (selected) derivational relations in Czech
- revision and refinement of the tectogrammatical annotation of PDT in domain of semantically relevant grammatical categories (tree node attributes called grammatemes)
  - grammatical category of verbal mood (indicative, conditional, imperative)
  - grammatical category of number (singular, plural + newly: pair/group meaning expressed by plural forms such as *oči* ‘eyes’, *vlasy* ‘hair’, *sírky* ‘matches’)
  - to be involved in the PDT version 3.0
- category of “predicatives” in Czech (*Je mu chladno* ‘He feels cold’ vs. *Chladně se zasmála* ‘She smiled coldly’)

# Magda Ševčíková (cont.)
