

Silvie Cinková

Hejnice 2010

Projects

- **COMPANIONS**
 - with Jan Ptáček, Mirek Spousta, Eva Fučíková + ZCU Pilsen
 - a robot chatting with Czech seniors about family photographs
- **English Tectogrammatical Annotation** (Wall Street Journal)
 - with Eva Fučíková, Marie Mikulová, annotators
- **Speech Reconstruction Corpus of English dialogs**
 - with Josef Toman, annotators
 - finalizing before release
- **Corpus Pattern Analysis**
 - with Martin Holub, Lenka Smejkalová, Patrick Hanks
 - we help formalize and evaluate an exciting lexical description of English verbs

Feel free to ask me to...

- manage a linguistic annotation for you
 - find, train, check, annotate
 - create and maintain annotation guidelines
- help you with features of Germanic languages
- find treebank structures with PMLTQ
 - (especially PDT & WSJ, but let me try a different one!)
- add a description of a corpus or a linguistic problem into your technical paper 😊
- look into issues in lexicology, lexicography, valency, borderlines between syntax and lexicon

PMLTQ, Tectogrammatical Representation & Information Extraction

- I would love to participate in a project that would promote PMLTQ and TR as a standard tool and data format for IE
 - identify events, find their participants, sketch mutual temporal relations
 - Czech & English dialogs = great data for finding out things about people: summarize one's biography.
 - an idea for the PDT 3.0 project???
