Study

- Teachers get comments from the teacher's survey from SIS via e-mail
 - Please, report inappropriate comments (offensive, impolite) to [Vice-Dean for Student Affairs](#)
- Rules of study at MFF valid from Oct 1, 2023 ([url](#))
 - Master's and Bachelor's thesis assignments
 - Thesis assignments **only** in electronic form in SIS (no printing, no signing, no sending out):
 - (1) Thesis supervisors submit their assignments.
 - (2) The assignments must be approved by a head of the supervisor's department.
 - (3) The assignments become public once the head approves them. Then students can register for them.
 - (4) The supervisor confirms the student's registration.
 - (5) Finally, a supervisor of a particular study programme confirms the thesis assignment for the student.
 - PhD students can supervise Bachelor's theses and cannot supervise Master's theses
 - For supervisors
 - max number of Bachelor's theses supervised at the same time = 10
 - max number of Master's theses supervised at the same time = 8

Study :: PlagUE Application <https://plague.mff.cuni.cz/>

is an application for teachers to record unethical behaviour by bachelor's and master's students related to their studies. Typically cheating on tests and exams.

Admin :: Digitization of operations @MFF

- **A new modul Nepřítomnost in CIS** (Central IS) cis.mff.cuni.cz
 - Let's slowly move from PAKT to CIS.
- **Benefits:** integration with other MFF systems thus aggregating all times of your absence in one place (maternity leave, parental leave, unpaid leave, sickness, annual leave, learning days, home office, and also business trips; updated eligible hours (days) of vacation and learning days to spent
- Test period during 09/2023 - 12/2023; GO-LIVE on 01.01.2024
 - Test period to debug and provide feedback (no real absence data currently in the system)

Admin :: Digitization of operations @MFF

- CIS approval process is same as it is in PAKT: you submit your time-off, request is sent to the Head of ÚFAL for approval
 - Approved time-off can be updated/cancelled, however, all changes must be approved again, and resolved by the end of each month

The screenshot shows the user interface of the 'Centralizovaný IS - VERSO - verze: 2.9.01' system. The top navigation bar includes the logo of the Faculty of Science (MATEMATICKO-FYZIKÁLNÍ FAKULTA) and the text 'Unit: Matematicko-fyzikální fakulta, Uživatel:'. Below the navigation bar, there are links for 'List of Absences', 'Attendance List', 'Timesheets', 'Setting ER', and 'Absence Management Help'. The main content area is titled 'Absence list' and features a sidebar menu with options: 'New', 'HO - Homeoffice', 'DOV - Annual leave', 'DOR - Personal development days', 'PVD - Paid leave – personal reasons', and 'NV - Unpaid Leave'. A red box highlights this sidebar menu, and red arrows point to the 'DOV - Annual leave' and 'DOR - Personal development days' items. The main table area shows columns for 'Start date', 'End date', 'Number of days', 'Working relationship', 'Workplace', 'Approver', 'Request status', and 'ID'. The footer of the interface includes the copyright notice '©2023 DERS s. r. o.'.

Admin :: Digitization of operations @MFF

- Timeline for ÚFAL - currently expected next steps:
 - **September**: continue using PAKT for your time-off requests as usual (please do not use CIS to submit your requests)
 - 25.-26.9.: all approved requests in PAKT will be transferred to CIS
 - 26.-28.9.: record review in CIS by everyone (email instructions will be provided)
 - 29.9.: all recorded absence will be submitted to HR - no changes will be possible after 29.9.

Admin :: Digitization of operations @MFF

- Timeline for ÚFAL - currently expected next steps:
 - **October**: channel for submitting your requests to be discussed
 - 2nd half of the month: short internal sessions on instructions to use the new module (optional); manual to be published on ÚFAL WIKI
 - November - December: more sessions on instructions to use the new module (if needed/requested)
 - **November**: collecting your feedback to be passed to the development team
 - **December**: expected shift from PAKT to CIS
