# <u>Instructions for use</u> module My vacation in the PAKT system

The latest update: 13 September 2022

The PAKT is an administrative system for the management of personnel and project agenda of ÚFAL MFF UK(
<a href="https://ufal.mff.cuni.cz/pakt/">https://ufal.mff.cuni.cz/pakt/</a>). One of its modules is My Vacation for:

- planning, requesting and approval of holidays and learning days
- overviews of business trips.

### **D** — Paid time off (PTO)

Menu:

- 25 days/40 days (number of available days can be checked in CIS/Verso application);
- the vacation plan must be drawn up in accordance with the Dean's Measure No. 3/2021 by the end of March of the relevant year. It can be changed over the course of the year as necessary:
- in the first quarter it is possible to take leave in exceptional cases, e.g. parents of children during spring break;
- the largest part of the holiday needs to be taken during summer holidays;
- it is possible to transfer holiday days to the next year in exceptional cases, see Dean's Measure No. 3/2021.

### **R** — Learning days (DOR)

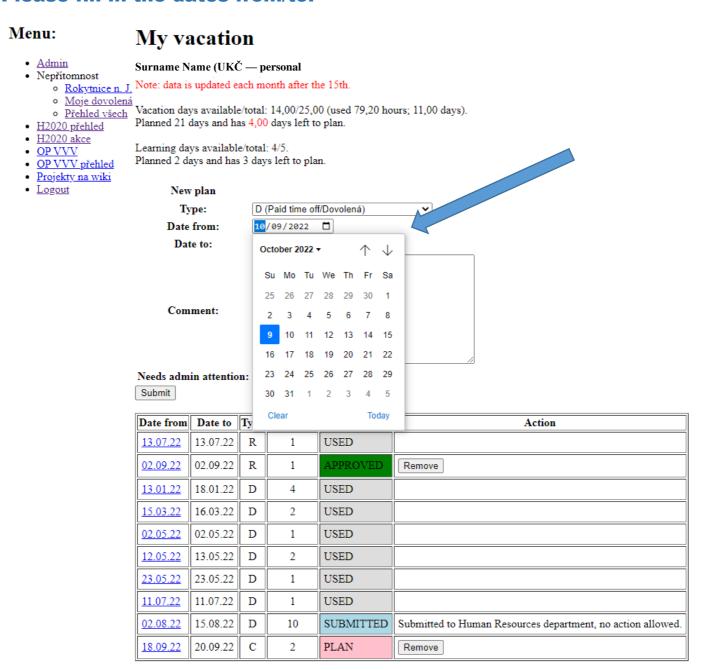

- 5 days for staff members with at least 0,5FTE and after the probationary period;
- there is no obligation to use up all the days, it is an employer's benefit;
- it cannot be taken all at once

C — Business trip — does not replace a travel order via SIS and cannot be approved via PAKT! It serves only for your review and overview of colleagues, especially during the summer months.

The number of days of PTO and DOR is shown above the planning form.

If your contract for a fixed term expires, e.g. on 30. 6., you only have a proportion of available PTO/DOR listed. After the renewal of the contract, the remaining days will be loaded as well.

# After approval, you will receive an email with notification

and the color in both the table and the calendar turns to dark green. Until the end of the month, until the attendance is sent to the employee department, the days may be <u>edited</u>. After sending the attendance, the color changes to light blue and after payment of the salary for the month in question, the color grey, which is definitive.

# **Explanation of Colors:**

Plan — Business trip;

Plan — planned PTO/DOR;

**Pending** — approval for PTO/DOR sent (and waiting for approval);

**Approved** — PTO/DOR approved;

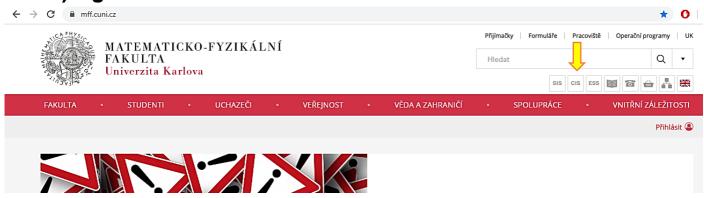

Submitted — sent in the statement to the HR department, this number of days will be recorded by the HR in their system; it also serves for doublecheck with the information from your payroll/Verso system (see below);

**Used** — accounted for and paid.

Color of letters in the calendar — the record is <u>blue and underlined</u> only until the record can be edited; through this link the user can navigate to the record itself. When the record can no longer be changed, the link disappears, and the font color is black.

# b) Vacation & Payroll

Vacation — the data is updated monthly with a slight delay (approximately by the 10th day of the following month), so that in the middle or at the end of the month the figures are rather indicative. If a fixed-term contract expires during the year, only a proportion of the holiday is listed. The rest will appear after the extension of the contract.

Pay slip — you will get to the pay slips after entering the PIN, which you choose the first time you log in (after a year, the system will ask you to enter a new PIN). The forgotten PIN will be reset by Mr. Jančák from the HR department.
